

MINERALOGICAL MAGAZINE

ISSN 0026-461X

Principal Editor

Dr M. D. WELCH, *Department of Mineralogy, The Natural History Museum,
Cromwell Road, London SW7 5BD, UK*

(Manuscripts should be submitted on-line at www.minersoc.org/e_journals/minmag.html)

Associate Editors

F. CÁMARA, *C.N.R., Italy*

R. G. CAWTHORN, *University of the Witwatersrand, South Africa*

A. G. CHRISTY, *Australian National University, Canberra, Australia*

G. D. GATTA, *Università degli Studi di Milano, Italy*

C. A. GEIGER, *Universitaet Kiel, Germany*

E. S. GREW, *University of Maine, USA*

C. HAYWARD, *University of Edinburgh, UK*

K. HUDSON-EDWARDS, *Birkbeck College, London, UK*

S. KRIVOVICHEV, *St Petersburg State University, Russia*

D. A. POLYA, *University of Manchester, UK*

A. PRING, *South Australia Museum, Adelaide, Australia*

T. R. RILEY, *British Antarctic Survey, Cambridge, UK*

E. SOKOLOVA, *University of Manitoba, Winnipeg, Canada*

C. D. STOREY, *University of Bristol, UK*

E. VALSAMI-JONES, *Natural History Museum, London, UK*

Book Reviews Editor: R. A. HOWIE

Structures Editor: F. CÁMARA

Production Editor: P. G. HILL

MINERALOGICAL SOCIETY

[Registered Charity No. 233706]

Officers and Council for 2009

President: M. A. Carpenter

Treasurer: C. J. Stanley

General Secretary: M. E. Hodson

Publications Manager: A. A. Finch

Principal Editor of the Magazine: M. D. Welch

Principal Editor of 'Clay Minerals': J. M. Adams

Ordinary Members of Council: J. Davidson, K. Goodenough, S.L. Harley, R.J. Harrison, S. Hillier, K. Hudson-Edwards, A.P. Jones, T. Law, N. Moles, P.W. Scott, E. Tomlinson, M. Warren, C.T. Williams

Office address: 12 Baylis Mews, Amyand Park Road, Twickenham TW1 3HQ, UK;

Tel. +44 (0)20 8891 6600; *Fax* +44 (0)20 8891 6599; *e-mail* info@minersoc.org

Front cover picture: The structure of charoite, $K_{6-7}(Ca,Na)_{18}[(Si_6O_{17})(Si_{12}O_{30})(Si_{18}O_{45})](OH,F)_{2.n}H_2O$, deduced from high-resolution electron microscopy and electron diffraction. The view is looking down the crystallographic *c* axis parallel to the channels. (Rozhdestvenskaya *et al.*, this issue).
