

CONTENTS OF No. 522, NOVEMBER 2015

	<i>Page</i>
KATHERINE MORRIS, NICK D. BRYAN, NICHOLAS D. M. EVANS and RAY KOWE: The IGD-TP Geodisposal 2014: Introduction to the Conference Proceedings	1245
A. E. BOND, K. E. THATCHER and S. NORRIS: Multi-scale gas transport modelling for the EC FORGE project	1251
TIMOTHY A. MARSHALL, KATHERINE MORRIS, GARETH T. W. LAW, J. FREDERICK W. MOSSELMANS, PIETER BOTS, HANNAH ROBERTS and SAMUEL SHAW: Uranium fate during crystallization of magnetite from ferrihydrite in conditions relevant to the disposal of radioactive waste	1265
E. WIELAND and W. HUMMEL: Formation and stability of ¹⁴ C-containing organic compounds in alkaline iron-water systems: preliminary assessment based on a literature survey and thermodynamic modelling	1275
ADAM J. WILLIAMSON, KATHERINE MORRIS, CHRISTOPHER BOOTHMAN, KATHY DARDENNE, GARETH T. W. LAW and JONATHAN R. LLOYD: Microbially mediated reduction of Np(V) by a consortium of alkaline tolerant Fe(III)-reducing bacteria	1287
E. VAN ES, J. HINCHLIFF, M. FELIPE-SOTELO, A. E. MILODOWSKI, L. P. FIELD, N. D. M. EVANS and D. READ: Retention of chlorine-36 by a cementitious backfill	1297
NICK SHERRIFF, RAGIAB ISSA, KATHERINE MORRIS, FRANCIS LIVENS, SARAH HEATH and NICK BRYAN: Reversibility in radionuclide/bentonite bulk and colloidal ternary systems	1307
D. JUSTINAVICIUS and P. POSKAS: Temperature and tortuosity effect on gas migration in a high-level waste disposal tunnel	1317
LIAM PAYNE, PETER J. HEARD and THOMAS B. SCOTT: Evaluation of the use of magnetic sector secondary ion mass spectrometry to investigate ¹⁴ C distribution in Magnox reactor core graphite	1327
A. C. WISEALL, R. J. CUSS, C. C. GRAHAM and J. F. HARRINGTON: The visualization of flow paths in experimental studies of clay-rich materials	1335
FABIOLA GUIDO-GARCIA, GARETH T. W. LAW, JONATHAN R. LLOYD, PAUL LYTHGOE and KATHERINE MORRIS: Bioreduction of iodate in sediment microcosms	1343
J. QUIRKE, C. M. B. HENDERSON, R. A. D. PATRICK, K. M. ROSSO, A. DENT, J. W. SHARPLES and C. I. PEARCE: Characterizing mineralogy and redox reactivity in potential host rocks for a UK geological disposal facility	1353
QINGRONG XIONG and ANDREY P. JIVKOV: Analysis of pore structure effects on diffusive transport in Opalinus clay via pore network models	1369
JANICE LITTLEWOOD, SAMUEL SHAW, PIETER BOTS, CAROLINE L. PEACOCK, DIVYESH TRIVEDI and IAN T. BURKE: Effect of solution composition on the recrystallization of kaolinite to feldspathoids in hyperalkaline conditions: limitations of pertechnetate incorporation by ion competition effects	1379
M. JOBMANN and A. MELESHYN: Evaluation of temperature-induced effects on safety-relevant properties of clay host rocks with regard to HLW/SF disposal	1389
NICK BRYAN, DOMINIC JONES, ROSE KEEPAX, DEAN FARRELLY, LIAM ABRAHAMSEN, REBECCA BEARD, NIGEL LI and GEORGE WEIR: Factors affecting the dissociation of metal ions from humic Substances	1397
ELIZABETH B. A. MOYCE, ANTONI E. MILODOWSKI, KATHERINE MORRIS and SAMUEL SHAW: Herbert's Quarry, South Wales – an analogue for host-rock alteration at a cementitious radioactive waste repository?	1407
M. FELIPE-SOTELO, A. E. MILODOWSKI and N. D. M. EVANS: Inhibition of the formation and stability of inorganic colloids in the alkaline disturbed zone of a cementitious repository	1419

NAJI M. BASSIL, ALASTAIR D. BEWSHER, OLIVIA R. THOMPSON and JONATHAN R. LLOYD: Microbial degradation of cellulosic material under intermediate-level waste simulated conditions	1433
GINA KUIPPERS, NAJI MILAD BASSIL, CHRISTOPHER BOOTHMAN, NICHOLAS BRYAN and JONATHAN R. LLOYD: Microbial degradation of isosaccharinic acid under conditions representative for the far field of radioactive waste disposal facilities	1443
W. R. BOWER, C. I. PEARCE, G. T. R. DROOP, J. F. W. MOSSELMANS, K. GERAKI and R. A. D. PATTRICK: Radiation damage from long-term alpha particle bombardment of silicates – a microfocus XRD and Fe <i>K</i> -edge XANES study	1455
R. C. WALKE, M. C. THORNE, J. T. SMITH and R. KOWE: Representation of estuarine, coastal and marine biosphere systems within post-closure performance assessments supporting geological disposal of higher activity radioactive wastes in the UK	1467
WENBIN YANG, REBECCA LUNN and ALESSANDRO TARANTINO: MEMS sensor-based monitoring system for engineered geological disposal facilities	1475
CHRISTOPHER REID, REBECCA LUNN, GRÁINNE EL MOUNTASSIR and ALESSANDRO TARANTINO: A mechanism for bentonite buffer erosion in a fracture with a naturally varying aperture	1485
CHARALAMPOS DOULGERIS, PAUL HUMPHREYS and SIMON ROUT: An approach to modelling the impact of ¹⁴ C release from reactor graphite in a geological disposal facility	1495
R. M. MASON, J. K. MARTIN, P. N. SMITH and R. J. WINSLEY: Consequence modelling of hypothetical post-closure criticality events for spent fuel disposal	1505
H. TIETZE-JAENSCH, P. VAN ISEGHEM, L. BOUCHER, A. DODARO, L. FUKS, J. P. GUISSSET, S. KOIVURANTA, C. LIERSE, W. NECKEL, G. PIÑA, S. STEYER, L. VAN VELZEN and E. VICO DEL CERRO: ENTRAP and its potential interaction with European networks	1515
T. HERNANDEZ-SELVA, D. L. ENGELBERG, F. SCENINI, D. FOX and A. McCLUSKY: Manufacturing technology for implementing geological disposal: electroforming of copper canisters	1521
N. CASSINGHAM, C. L. CORKHILL, D. J. BACKHOUSE, R. J. HAND, J. V. RYAN, J. D. VIENNA and N. C. HYATT: The initial dissolution rates of simulated UK Magnox–ThORP blend nuclear waste glass as a function of pH, temperature and waste loading	1529
S. G. ZIHMS and J. F. HARRINGTON: Thermal cycling: impact on bentonite permeability	1543
R. J. WINSLEY, T. D. BALDWIN, T. W. HICKS, R. M. MASON and P. N. SMITH: Understanding the likelihood and consequences of post-closure criticality in a geological disposal facility	1551
MERITXELL MARTELL and KRIS VAN BERENDONCKS: Integrating societal concerns into research and development (R&D) on geological disposal at the national level	1563
A. CONSTANTIN, M. CONSTANTIN and D. DIACONU: Investigation of the attitudes, needs, and expectations of the Saligny community	1573
POVILAS POSKAS, ASTA NARKUNIENE and DALIA GRIGALIUNIENE: Overview of the Lithuanian programme for disposal of RBMK-1500 spent nuclear fuel	1581
R. KOWE, J. DELAY, M. HAMMARSTRÖM, T. BEATTIE and M. PALMU: The Implementing Geological Disposal Technology Platform – addressing the needs of new Member States	1591
D. DIACONU, I. IVANOV, N. ŽELEZNIK, M. KRALJ and G. ZAKRZEWSKA: Overview of less advanced programmes and their requirements	1599

A. T. K. IKONEN: Requirement of the assessment strategy for biosphere in mature safety cases for nuclear waste repositories – Finland case	1607
N. S. LORD, A. RIDGWELL, M. C. THORNE and D. J. LUNT: The ‘long tail’ of anthropogenic CO ₂ decline in the atmosphere and its consequences for post-closure performance assessments for disposal of radioactive wastes	1613
SIMON MYERS, DAVID HOLTON and ANDREW HOCH: Thermal dimensioning to determine acceptable waste package loading and spatial configurations of heat-generating waste packages	1625
L. BAILEY: Development of a Generic Safety Narrative for a UK Geological Disposal Facility	1633
DAVID LEVER and SARAH VINES: The carbon-14 IPT: an integrated approach to geological disposal of UK wastes containing carbon-14	1641
SUSANA O. L. DIREITO, SAMANTHA CLARK, CLAIRE COUSINS, YOSHIKO FUJITA, JON GLUYAS, SIMON HARLEY, RICHARD J. HOLMES, IAN B. HUTCHINSON, VITALY A. KUDRYAVTSEV, JON LLOYD, IAN G. MAIN, MARK NAYLOR, SAM PAYLER, NICK SMITH, NEIL J.C. SPOONER, SAM TELFER, LEE F. THOMPSON, KATINKA WOUTERS, JOANNA WRAGG and CHARLES COCKELL: Geological repositories: scientific priorities and potential high-technology transfer from the space and physics sectors	1651
MAGNUS KRONBERG, JAN GUGALA and KEIJO HAAPALA: State-of-the-art and proof-of-concept installations for repository concepts based in crystalline rock	1665
