KATHRYN M. GOODENOUGH and FRANCES WALL: Critical Metal Mineralogy: Preface to the special issue of Mineralogical Magazine	1
A. M. BORST, H. FRIIS, T. ANDERSEN, T. F. D. NIELSEN, T. E. WAIGHT and M. A. SMIT: Zirconosilicates in the kakortokites of the Ilímaussaq complex, South Greenland: Implications for fluid evolution and high-field-strength and rare-earth element mineralization in agpaitic systems	5
HENRIK FRIIS: First occurrence of moskvinit-(Y) in the Ilímaussaq alkaline complex, South Greenland – implications for rare-earth element mobility	31
ÉIMEAR A. DEADY, EVANGELOS MOUCHOS, KATHRYN GOODENOUGH, BEN J. WILLIAMSON and FRANCES WALL: A review of the potential for rare-earth element resources from European red muds: examples from Seydişehir, Turkey and Parnassus-Giona, Greece	43
G. A. MOLDOVEANU and V. G. PAPANGELAKIS: An overview of rare-earth recovery by ion-exchange leaching from ion-adsorption clays of various origins	63
KENZO SANEMATSU, TERUMI EJIMA, YOSHIKI KON, TAKAYUKI MANAKA, KHIN ZAW, SAYAKA MORITA and YUNA SEO: Fractionation of rare-earth elements during magmatic differentiation and weathering of calc-alkaline granites in southern Myanmar	77
E. RODA-ROBLES, A. PESQUERA, P. P. GIL-CRESPO, R. VIEIRA, A. LIMA, I. GARATE-OLAVE, T. MARTINS and J. TORRES-RUIZ: Geology and mineralogy of Li mineralization in the Central Iberian Zone (Spain and Portugal)	103
ALIREZA ZARASVANDI, MOHSEN REZAEI, MARTIYA SADEGHI, HOUSHANG POURKASEB and MASOUME SEPAHVAND: Rare-earth element distribution and genesis of manganese ores associated with Tethyan ophiolites, Iran: A review	127
G. C. CAPITANI, E. SCHINGARO, M. LACALAMITA, E. MESTO and F. SCORDARI: Structural anomalies in tobelite-2M ₂ explained by high resolution and analytical electron microscopy	143
C. BREHENY, K. R. MOORE, A. COSTANZO and M. FEELY: Reconstruction of an Ordovician seafloor volcano-hydrothermal system: a case study from the Copper Coast, southeastern Ireland using field, geochemical and fluid inclusion data	157
CRISTIAN BIAGIONI, LUCA BINDI, FABRIZIO NESTOLA, RALPH CANNON, PHILIPPE ROTH and THOMAS RABER: Ferrostalderite, CuFe ₂ TlAs ₂ S ₆ , a new mineral from Lengenbach, Switzerland: occurrence, crystal structure, and emphasis on the role of iron in sulfosalts	175
M. TREDoux, F. ZACCARINI, G. GARUTI and D. E. MILLER: Phases in the Ni–Sb–As system which occur in the Bon Accord oxide body, Barberton greenstone belt, South Africa	187
<i>CNMNC Newsletter 29</i>	
U. HÄLENIUS, F. HATERT, M. PASERO and S.J. MILLS: New minerals and nomenclature modifications approved in 2015 and 2016	199
